DISPENSARY FRUITS.

Another human being has lost his life as an outcome of the dispensary law, and the circumstances attending the killing are worse than any of the many diabolical decds directly tracevendor of liquor. A patriotic people, under normal conditions, would have resented such degrading of the dignity of the State, and we believe that when they shall have returned to their intelligent and conservative senses, they will stamp out the law. It invited corruption, and from its incipiency corruption, moral and political debauchery, tyranny and bloodshed have accompanied its enforcement.

The circumstances of the killing of Turner in Spartanburg are enough to make the blood of liberty-loving peomass, and demand that this thing shall stop. As to the facts of this homicide, the accounts published in the papers all agree in the material points. Detective Newbole and Constable Howie were sent by Governor Ellerbe to make a tour through Spartanburg and Greenville. These dispensary constables were camped about two or three miles from Spartanburg City. Turner, & sober, industrious, law-abiding, peaceable and highly respected farmer, a deacon in the Baptist Church, and a liquors for original packages is only friend were in a buggy to take the another prop knocked from under the train for Columbia. This ground is hardly tenable, and a thorough investigation would show that there are no more blird tigers now than when the constables were re moved. We doubt seriously if there are as many tigers now as at the time of the abolition of the constabulary force. Again we do not believe that the shrinkage in receipts is due to unlawful sales by original packages.
